## Customer Reviews

The story of Andy and His Yellow Frisbee takes place on the school grounds where Rosie plays soccer as Andy spins his yellow frisbee around in a corner on the playground. It just so happens that the new girl Sarah who carries a large backpack has taken notice of Andy. From the very first sentence, "Andy was a real puzzle to Sarah." I get a sense that the author knows first hand the trials and tribulations of raising a child with autism, since the autism ribbon is known as a "puzzle". During recess each day while Rosie was playing soccer she would watch over at the hopscotch area where Andy was engrossed with his yellow frisbee. She was not pleased when Sarah started observing her brother and getting closer to him. All Rosie could think about while trying to focus on her soccer game was whether Sarah would invade Andy's space and be able to understand his speech if he tried to talk to her. The soft pastel illustrations play out the story line with the body positions of Andy and Sarah and the busyness of the other kids in the background. While sitting there during recess Sarah pondered what it was like being new at the school as she checked

her teddy bear inside her backpack. Rosie had noticed the large backpack of Sarah's when she first arrived at the school and was cautious, but it turns out this was to keep her favorite item with her for extra comfort. Sarah decided that Andy's yellow frisbee could be a comfort item like hers. This was an interesting spin on comparing how a new student at school feels to the child who prefers to be alone in their own world. Something about Andy and his daily routine in spinning the yellow frisbee caught the eye of the girl allowing her to open up and meet others because of this.
