The Story Of Mohammed Islam Unveiled

Synopsis

In the scorching sands of Arabia, Mohammed ibn Abdullah (The Prophet Mohammed) had a problem. After preaching for 13 years he had attracted on average just 12 followers a year to his new religion of Islam. Worse still, half the people in his home town of Mecca wanted to kill him. After fleeing to Medina however, things would change dramatically. Over the course of the next 9 years, this orphaned shepherd boy would develop the most devastating system of conquest ever devised; Jihad. He would become King of all Arabia and convert the entire Peninsula to Islam. Even his enemies would be forced to worship at his feet. After his death the uneducated desert Arabs would burst out on an unsuspecting world. Using this same system of Jihad, they would conquer both of the world's greatest empires in just a few short years. Within 3 decades they would control the majority of the Middle East, North Africa and Northern India. Today the empire of Islam comprises 1.3 billion people and it is the fastest growing religion on the planet. Is it a religion of peace or of endless violence? Does it advocate suffocating sexual morality or sex slavery and harems? How can both the moderates and extremists be true Muslims? The surprising answers to these questions and more reveal themselves as this incredible story unfolds. The material in this book is drawn directly from the foundational texts of Islam. Instead of merely quoting the texts however, it explains how they came into being and how they relate to each other. It then provides the key which unlocks their true meanings. Armed with this knowledge, readers are then able to make their own interpretations and draw their own conclusions. References are provided throughout and every effort is made to assist the reader to do their own research should they wish. Despite the serious nature, the story itself is gripping and fast paced. Mohammed's exploits constitute one of the greatest adventure stories of all time. Importantly, his life is the basis for the religion of Islam. By knowing his story, we can understand the forces which drive both militant and peaceful Muslims. It explains the mindset of the modern Jihadists and predicts the inevitable rise of ultra militant groups such as ISIS, Boko Haram and Al-Qaeda. Customer Reviews

This relatively short book is a primer on the story of the presumptive founder of Islam. It is based on (translated) primary sources of Islamic literature, including the Qur'an, the main two books of Hadith (Al Bukhari and Sahih Muslim) and the Sira by Ibn Hisham (based on Ibn Ishaq's work that is no longer in existence). The author has rendered a genuine service to his readers by presenting this well researched and documented biographical history of Mohammed that is largely unknown by non-Muslims and unrevealed to many Muslims - the majority of whom are non-Arab and do not understand the original language of the Islamic doctrine. They study the Holy Scriptures by rote and according to the bias of their Imam. Mr. Richardson presents the data in an objective, straight forward and matter-of-fact manner. The writing is clear and blunt but devoid of inflammatory conjecture or derogatory characterization. He simply let the facts speak for themselves and the facts do not paint a positive picture of their subject, especially through the prism of 21st century

civilization. The turmoil within the Muslim Ummah today is rooted within its genesis - rejection of the principle of "cause and effect" and total reliance on predestination leave no room for personal innovation or technical achievement "because all is preordained by the will of Allah". The doctrine of Abrogation "Naskh" has created a schizophrenia of accepted behavior in the believers - the peaceful Mecca sermons are abrogated by the later aggressive militaristic Medina verses that exhort the believers on hegemony and world domination.
