Accidents and injuries are going to happen at some point or another, and sometimes it is no one's fault. Sharing the Secrets, Learning the Lies, A guide to Florida Personal Injury is an e-book written by by Wade Coye. The volume opens with a Disclaimer stating that "Use and access to this material does not create an attorney-client relationship between The Coye Law Firm and the user reader." • Then: 1. Introduction offers pertinent remarks about personal injuries and explains that although imperfect, the existent Personal injury law is the only means of receiving compensation for unfortunate injuries sustained. It further includes a sentence: "To my fellow attorneys, I wrote this book to help consumers; it is not a how-to book, and I welcome feedback that will help better educate everyone about the perils and pitfalls of the personal injury system." • The Disclaimer again is presented. Following this introductory material a seemingly almost endless enumeration of the

factors involved are supplied. Included: the necessity to take pictures, measurements, note specific details such as on site construction and find witnesses if possible; need to obtain an accurate diagnosis and treatment plan of the injury quickly; realize what is involved in medical bills - immediate, follow-up and possibly recurring, or even the need to realize that some may be acquired only later when latent sequelae appear; evaluate physicians involved in ensuing treatment, the possible requirement of more extensive and/or expensive treatment or therapy and their method of payment; e.g., willingness to take assignment of the case with or without a Letter of Protection; discover when and how the payment is to be made as well as who pays. And here again there are a multitude of organizations involved, the Emergency team, the hospital, Medicare, Medicaid, Workman's Compensation and almost countless possible insurance companies.
