## Customer Reviews

Un muy buen libro, es un excelente paso a paso, el único lunar es que en ocasiones el autor utiliza términos que para un novato son desconocidos y solo unos capítulos adelante puede inferir a lo que se refieren estos términos.

Excelente libro la verdad explica muy bien y también tiene fotos de las progresiones, pero lo que lo mejora aun mas es la narrativa parece casi una novela. ..uno quiere seguir leyendo

Este libro está tan perfecto y dinámico. El escritor narra paso a paso sus experiencias al bonsai y paisajismo. Ver y good
