Essential Keyboard Repertoire, Vol 2: 75 Intermediate Selections In Their Original Form - Baroque To Modern (Alfred Masterwork Edition: Essential Keyboard Repertoire)

Synopsis

This is an excellent volume compiled for the advancing intermediate student, containing 75 intermediate-level selections in their original form ranging from the Baroque to Modern periods. Volume 2 is the natural outgrowth of the initial volume in this series. The technical level is somewhat more advanced and the range of expression is appropriately wider and more challenging than in Volume 1. The comb binding creates a lay-flat book that is perfect for study and performance.

Customer Reviews

This book has several great intermediate pieces - many people recognize several songs. Also used volume 1 of this book which was very nice as well.

Great deal, perfect condition, and nice volume of intermediate works. Will use this for my piano students.

Great for sight-reading practice!

Excellent

Works better than I thought it did. Its securely on the windshield and all you have to do is snap phone into place which takes like half a second then release the phone when done which is another half second. If you need a car mount, this is what you wanna buy.
