cheap, toward my future law studies; 1/15. I think hold off on 8th, if I can will update to 5\*. However they moved on to newer edition, 8th. Guess have to learn to be patient. 1/13/2016 spring and there is only one slot left until 1/20/2016 when senior tuition kicks in, another week. I am doing this to see if future law studies is in the future. Wonder if I can use this edition. The used 8th edition is around \$83 with shipping. My real goal is law school, LSAT, outline 1L courses, then decide to pull trigger if my second one is through enough college to get IT job in Federal or private. Frees me up for law school studies, get JD and transition to JD in federal... We shall see. Prep for retirement, \$\$.

I contacted this seller beginning in July about the missing 11 books and they were sympathetic but said to wait for the books. I contacted them 4 times saying I wanted a credit to my account but they have ignored my requests and have not credited my account. Poor business practices.

all of my expectations were exceeded: time, condition; price however I might add more should be done to keep the price down, but overall it was the best. I should note, I tried barns and nobles and I have nothing good to say about that experience. but I digress...lol

I have already begun reading this book for my next term at school. Got it very quickly and took it for some light reading during my vacation.

I bought this for my first litigation class textbook and am very impressed how thorough it is. This is a keeper.

Book was perfect got it on time for my class start date! Had all the codes and CD needed for my class!

This book served its purpose for the little time it was used in the course I took. However, the book is also used for the next class that I will be taking so I will be having to buy the book for that purpose.

I really didn't need it. I found out that it's not a requirement for the paralegal examination. But, if one plans to specialize in the litigation field, it's very useful.
