Lifting The Veil: The True Faces Of Muhammad And Islam

Synopsis

This book is based upon our YouTube series "Idiots Guide to Islam", of Q & A chapters that are listened to. It is fully complimented, with more details on our web site "www.inthenameofallah.org" The purpose of this book is to enlighten, step by step, an otherwise IGNORANT immense majority of humanity among both the so called Believers & Unbelievers about the FACTS & REALITY of the Cult of Muhammadan Islam. All references are based entirely upon the Arabic language of the Quran, Hadiths, Arab & Islamic histories. It analyses almost every concept, precept, thought, idea, expression and relevant verse of the Quran and contains extremely controversial and unusual statements and conclusions. By the time one has either read this book or listened to the series, one will become so knowledgeable on the Quran, Hadiths, Arab & 'Islamic' histories, to such an extent, that never again would one be fooled, deceived or misled regarding these subjects.

Customer Reviews

I've been a fan of "The Idiot's Guide To Islam" videos for quite some time. The chapters are easy to understand, concise, and irrefutable. The author has even offered a cash reward to anyone who can disprove any of his chapters. To date, the reward is unclaimed. The author uses Islam's own holy texts to expose the failings, inconsistencies, and fallacies of the Quran and the prophet Muhammad, the basis of Islam. Every claim is backed by the words and writings of Islamic scholars, verses from the Quran, and lessons from the Hadith. You can hear the audio chapters as you read by visiting

YouTube and locating the user "AhmadsQuran3". Links to the author's website and blog are listed there. *Lifting the Veil: The True Faces of Muhammad and Islam*

If you've wished you could recall which of the first 100 videos produced by AhmadsQuran3 covered which topic, you need to buy this book. All references used in the vids are included in each chapter of this comprehensive text. Take your time studying this compilation, and don't be shy about highlighting and making notes. This dedicated and articulate teacher makes every effort to enlighten his audience, leaving no question about Muhammad's Islam unreferenced. No one knows Islam better than the Arabic speakers who read the koran and its mountains of explanatory books in the original language. No one benefits more than the English speakers who have wondered "what" and "why" Islam is.

The book is spotty, some parts revealing information otherwise unheard in the West about Islam, mostly things Mohammedans would rather you not know, the truth about Mohammed's ignorance of Judaism and Christianity, his use of violence to force his tribe to accept his theological nonsense, the true meaning of the word "Allah", etc. And, naturally, there is discussion of the bizarre sexual practices countenanced by this cult, and we learn that female genital mutilation is just the tip of a very ugly iceberg. But since it is the script of a video series, there is a HUGE amount of repetition. In one sense, this helps drive home a message the West desperately needs to hear, but on the other it is tedious and can drive some to lay down the book without reading it. It could benefit greatly from editing by a professional. Also, although it didn't bother me much, the author is not a native English speaker and it shows at times; again, a little editing would help with this difficulty. The message this book seeks to convey is so important that its defects can be overlooked. A one hour session reading it will inform you more dependably about Mohammedanism than ten years of listening to the likes of Bush, Obama, or the English PM, what's-his-name.

I suppose many people don't have the time or are even concerned enough to have read the Qur'an (much less studied it) or the Hadith for that matter. If you also are a Christian who is not that familiar with the Bible, then this book will be a little difficult for you. I believe in order to find the truth in matters, one must look at the evidence presented by both sides of an argument or belief system. After having spent the last six years studying the Bible and accomplishing a degree, I have now spent the last year intensely studying the claims of the Qur'an and Hadith. I am led to the same conclusions that I.Q. Al Rassooli presents to us. I begin to understand how people of all faiths will

follow their perspective religion without ever questioning its history and where its' theology springs from. Followers with a sincere heart will follow many of the positive practices designed to enlighten them. Many Christians never read their Bibles and couldn't tell you much of its history. But they will try to be good people. I believe much of the same is true for many sincere Muslims. If you are searching for the truth and the answers, then read this book. You may not agree with the authors conclusions, but I can only say, that I found nothing he wrote that I could dispute with. Thank you I.Q. Al Rassooli for having the courage to write this book. It will forever be a book that I will keep in my library and on my Kindle for quick reference.

This is a very well-argued book. It should be sent to every parliamentarian in the Western world.

This brilliant book is both solidly researched and convenient to use, as each one of the many concise chapters answers a precise question in a very clear and perfectly documented manner. This makes it the best resource I know for studying in a highly accessible way the various topics related to the teachings of the Qur'an, the fundamentals of Islam, the complex corpus of the hadiths, as well as all the different problems which arise when one tries to understand the significance of this religious culture in the modern world. This distinguished scholar is always careful to shed light on the intricate nuances of the original Arabic text, so that the non-Arabic reader may feel confident that the information provided is reliable and accurately translated and explained. I highly recommend this book to all, students, researchers, believers, non-believers, as well as the general public.
